

GERARD'S ORIGINAL RANGE

The Original Innovators

Gerard is the original creator of stone chip coated metal roof tiles, with thousands of roofs installed Australia-wide over the decades. If you have an older Gerard roof and are looking to extend your house or make repairs our Original Range is still available on request.

Incredible Quality

All of Gerard's steel panels and accessories are made from zinc-aluminium alloy coated steel in our ISO 9001 accredited factories. We source the best raw materials for every step of our manufacturing process and have a rigorous quality control process to ensure our products meet the very highest standards.

Made Down-Under, Proven Worldwide

Our products have been tested and proven around the world. Installed in over 127 countries, they have been exposed to some of the harshest environments on earth. Our products provide excellent protection against extreme weather conditions, earthquake safe, fire resistant and able to withstand cyclone-force winds. We stand by our product and back them with our 30-year warranty to give you complete peace of mind.

*cyclone testing conducted at James Cook University, Townsville, Australia

SATIN FINISH

TEXTURED FINISH

HERITAGE

A wide range of colours available on special order. Popular colours below.

SATIN FINISH

TEXTURED FINISH

Gerard colours may vary from different manufacturers who use different types of coating systems, gloss levels and application methods. Colours are as close to the finished product as possible, but will vary dependent on your screen settings. Due to the natural stone in our textured coatings, slight colour variations can be expected. Please request a colour sample for the most accurate results.
